DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The information disclosure statement filed 15 August 2006 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

The examiner notes that while applicant has included a search report from a foreign patent office, such submission does not satisfy the requirement for a concise explanation because it was not accompanied by an English-language version of the search report which indicates the degree of relevance found by the foreign office (see MPEP 609.04(a)III). English language abstracts of the foreign references do not meet the requirement in this case because the relevance of the references has already been stated to be based on the search report.
